

MD19 Lions Knights Of The Blind (KOTB) committee report.

Since our last report the committee members have been in several Grandpa's White Cane presentations to 3rd graders throughout our district, with several more scheduled in the near future.

Along with the presentations the committee has been very active in helping to raise funds for the second printing of the wonderfully educational book. Another 1000 books will be on hand soon. We are still looking for Lions clubs that might be interested in doing a fun presentation to some awesome 3rd graders.

Many KOTB representatives are planning to attend the upcoming Districts conventions as well as the MD 19 up in British Columbia in May.

Another project that the MD 19 Lions Clubs could be looking forward to with the Easter season coming up might be Audio Easter Egg hunts. There are several options to this project with very high rewards not only for the Visually Impaired but the Lions members involved.
